My Profile

Quick Profile Maintenance

Choose what part of your profile you wish to edit:

My Names	My Documents
My Addresses	My Phone Numbers
My E-Mail Addresses	My Web Addresses
Personal Photo and Logo Maintenance	Change My Password

Set RETS Password

From the FlexMLS menu, click on **My Profile**, and then **Set RETS Password**. Generally speaking, just as you only need to set your RETS password once, when you go to the MLS-Connect tool in zipForm®, you will only need to enter your RETS password once. For exceptions to this rule, **click here**.
